

## BUFFALO ASTRONOMICAL ASSOCIATION, INC.

## NEXT MEETING FEBRUARY 9th

The Buffalo Astronomical Association will hold its next meeting Friday February 9th one Half Hour later than usual at 8:00 instead of the usual 7:30. The meeting will be held either in the Roosevelt room or in room 302. Members are advised to ask at the desk.

The meeting will start with a 20 minute film entitled "The Universe" in color. This is one of the latest and best films on the subject of astronomy.

Marjorie Meyerwill present the constellation of the month. Her subject will be "Gemini", the Twins.

Paul Redding will give a five minute talk on "The Cluster of Planets". This is a timely talk on a subject which has created great apprehension among Hindus.

Lou Reinagel will give a fifteen minute talk on "Dilute Stellar Radiation".

## ADVANCED OBSERVERS GROUP

It is expected that the Advanced observers group will meet the 3rd Friday of the month. Members will be no-

## ELEMENTARY STUDY GROUP

The Elementary Study Group will hold two meetings each month. One of these will be held on the second Friday of each month. This is the same date as our monthly club meeting and the study group will meet in the same room (if possible) that is scheduled for use for the club meeting. The study group will begin its meeting at 6:30 P.M. The club meeting will follow at 8:00 P.M. The second monthly meeting of the study group will be at 2:00 P.M. on the last Sunday of each month. This meeting will be held at the home of Ron Clippinger, 95 Brinkman St.

## INCIDENTAL INTELLIGENCE

The observatory is not being deserted during the winter months. Members of the committee went out to look it over last week and discovered that snow had sifted through holes along the base ring. These were stuffed with rags so that in the future the observatory will remain snug and dry.
