

THE SPECTRUM

JUNE 1964

THE BUFFALO ASTRONOMICAL ASSOCIATION

B. COOK EDITOR

B.A.A. MEETS JUNE 12TH

The Buffalo Astronomical Association will hold its monthly meeting on Friday, June 12th at 7:45 P.M. in the Buffalo Museum of Science. The program will consist of reports on the activities of the three B.A.A. sections. The Observing Section report will be given by Ernst Both. Ron Clippinger will give the report on the Advanced Study Section, and Paul Redding will tell us about the activities of the Elementary Study Section. Edith Geiger will report on the coming Summer Star Nights.

Following the meeting there will be refreshments and a social hour. If the weather cooperates there will be observations with the museum's telescope.

The election of officers, usually held in June, are being postponed until December. This is in line with our recently adopted policy to have all business of the B.A.A. coincide with the calendar year. The present officers will continue until the elections in December with the exception of Marjorie Meyer who has been acting as secretary pro-tem and will be replaced until the December elections by Richard Zygmunt. We wish to thank Marjorie for filling in so ably after the resignation of Lou Reinagel.

Reminder: If your subscription to Sky and Telescope expires between July and November will you please notify Paul Redding at TF4-8219. (See notice in May Spectrum.)

SUMMER STAR NIGHTS

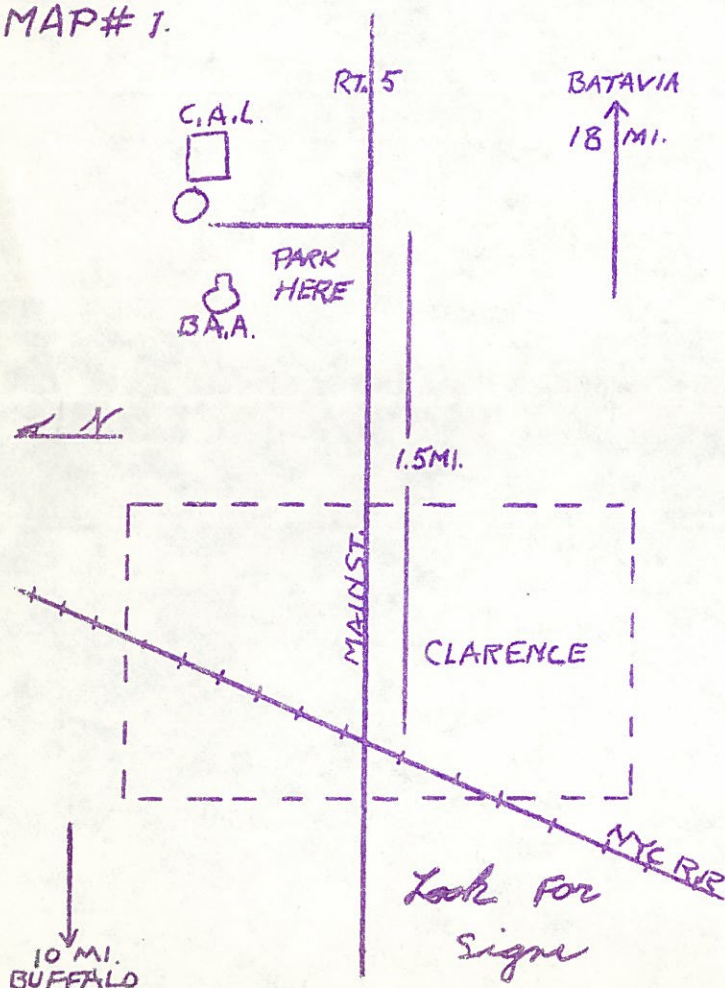

Listed below is the summer schedule of Star Nights:

General Instructions: Star Nights are planned for a Friday night with an alternate night on Saturday. If a Star Night is rained or clouded out, it will be postponed until the next night at the same time. If in doubt call either NF4-4718, TF4-8219 or TF4-4138. Wear warm clothing, bring insect repellent, and above all a telescope. Refreshments will be served.
